

HPG  
PREMIUM SERIES

# HPG

## A PREMIUM HIGH CARBON STEEL GRIT

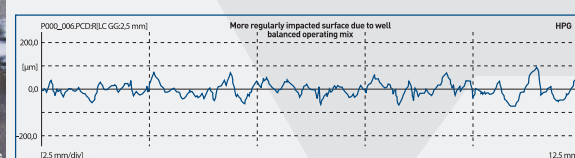

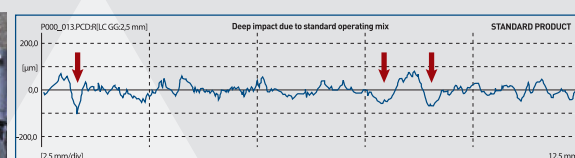

High performance abrasives for cleaning operations  
in foundries and forges

### Characteristics

- Narrow size distribution
- Long life
- Homogeneous and stable operating mix
- Elliptic grain shape
- High productivity grit for cleaning operations

Product name	HPG2	HPG4	HPG6	HPG8
Hardness	48 - 52 HRC			
Density	7.6 mini			
Chemical composition	C≥0.85% - Si≥0.4% - 0.6%≤Mn≤1.2% - S≤0.05% - P≤0.05%			
General Shape	Angular			

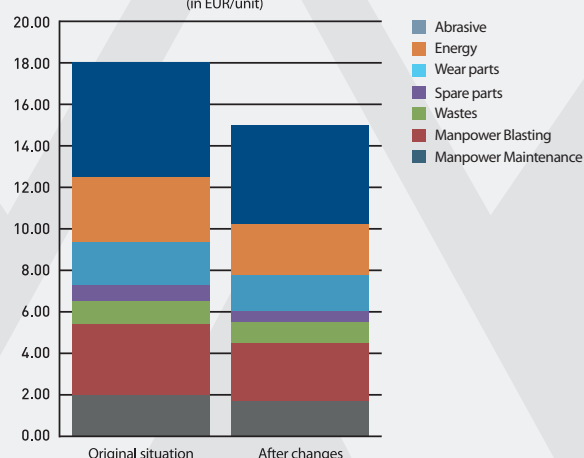

### HPG performance

Using HPG, you will be able to reduce your blasting process unit cost by 15%, by mainly:

- Increasing your productivity by 10%
- Decreasing your blasting time by 10%
- Saving your energy by 30%
- Reducing your abrasive consumption by 10%

Marginal cost  
(in EUR/unit)
